Dear Parent or Guardian,

- **Recognize** those students who are achieving at high academic levels who may need additional enrichment experiences;
- **Provide** students with the academic, behavioral and social support needed to succeed in school by **implementing** various strategies and interventions within the classroom.

This team is comprised of administrators, teachers and other school personnel who are involved with your child's learning.

At this time the Intervention Support Team sees the need for additional data on your child. As we seek this data, we wish to keep you fully informed of all activities related to your child's learning. The following activities **will be** completed as part of the ongoing data collection process:

- Processing/Achievement Assessment to gather data for problem solving intervention

The Intervention Support Team will meet to discuss appropriate strategies (be it enrichment or remediation) based on available data to help your child meet with success in the classroom. We consider you, the parent, to be a key member of the team, and you are welcome at every meeting. Your input is important and we encourage you to participate, as much as possible, in this process.
