

Workers' Compensation News

Employees play a key role in keeping the office, work station or classroom safe. Falls are the most common office accident, accounting for more than 50 percent of lost workdays. It is important to pick up pencils, paper clips and other objects that cause falls, and making sure that telephone, computer, and electric cords are not lying across pathways. Spilled food or drink is dangerous and must be cleaned up immediately.

We have all see the sign:

Your mother does not work here, clean up after yourself!

Unscramble the letters.
