

How to Setup E-mail Account in Outlook 2013

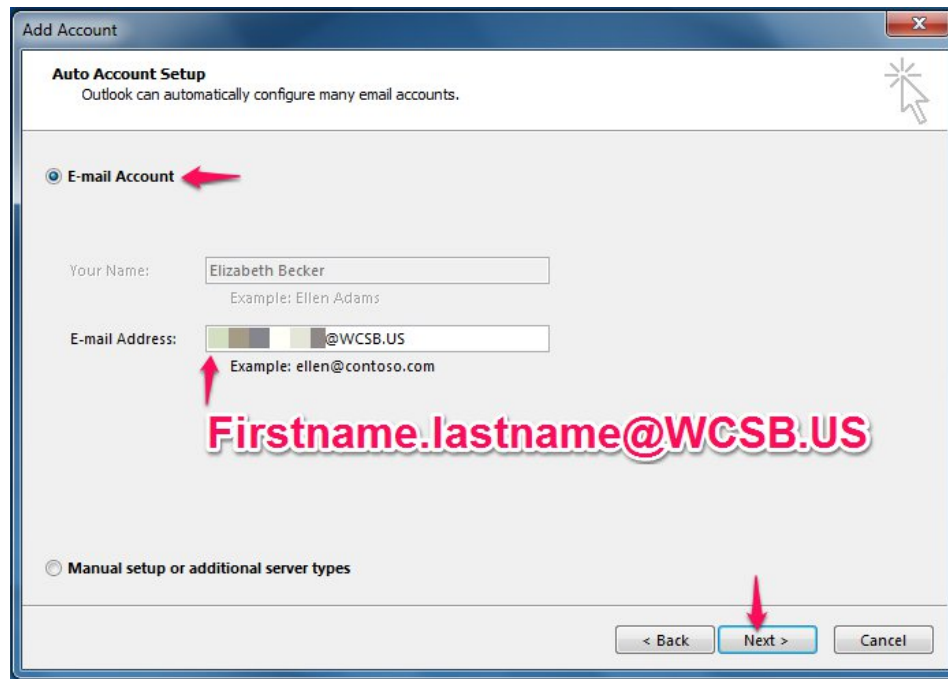

1. Open Outlook 2013 and click Next

2. When Asked "Do you want to set up Outlook to connect to an email account?" click Yes and Next

- When asked “E-mail Account” or “Manual setup” choose “E-mail Account” your full e-mail address should automatically be entered in the E-mail Address textbox, if not enter this now and choose next

- It will take a few minutes to setup your e-mail account
- You should receive a message that your account is now configured and ready for use, then just choose Finish
